Write a speech

1 Read the speech below and answer the questions.

Good morning! My name is Sarah Williams. It's an honour to be here and to share with you the story of how music has had an impact on my life.

Have you ever faced a time when things looked dark and you had no hope at all? Two years ago, I was told I had a serious disease which was difficult to cure. My body ached all the time and thus I thought I didn't have much longer to live. I was very afraid and I felt so alone and discouraged. Then one day, I had to go through a two-hour medical treatment. The doctor wanted me to relax, so he had me listen to some music, and one of the songs was "Happy". The song made me feel so much better that from then on I began to listen to music all the time. John A. Logan said, "Music is the medicine of the mind." And it's true. Music helped me recover.

Music gave me happiness. When I listened to music, it made my spirits fly like a kite in the wind. Music gave me strength and brought me relief. It was the rock I leant on to become strong and to get through those hard times. Moreover, music gave me hope and a sense of satisfaction. It became my best friend. It spoke words of encouragement to the deepest part of my being.

Of course, I hope none of you have to go through the same kind of suffering that I did. At the same time, we all go through various periods when we feel sad or alone. During those times, music can help you in the same way that it helped me. I hope all of you will somehow begin to treasure music and make it a part of your life.

Thank you!

Good morning, everyone.

As we all know, music is the universal language of mankind. It has no borders and can always touch our hearts. In my opinion, music is an indispensable part of our daily life.

...

All in all, music plays an important role in our growth. It comforts our soul, cultivates our taste and gives us endless strength. Thank you!

Two months ago, I failed an important exam and sank into deep depression. It was light music that pulled me out of endless anxiety.

3. 名言金句

As the saying goes, “Music is the medicine of the mind.” This sentence perfectly explains what music means to me.

4. 加入对比，强化观点

Without warm melodies and touching rhythms, our busy school life would be dull and lifeless. Unlike noisy rock, soothing instrumental music brings me inner peace.

4. 长短句结合

Life is full of pressure. Countless exams, endless homework, constant anxiety surround us every day. But music is our quiet shelter, which can soothe our nerves and fill our hearts with satisfaction.

Good morning, everyone! Today I'm very glad to share my thoughts on music with you. Music is the universal language of mankind. Among all kinds of music, I love light music and instrumental music best. Unlike fast-paced rock or popular songs, they have no complicated lyrics, only soft and beautiful melodies.

I like this kind of music mainly for two reasons. First, it is soothing and relaxing. As high school students, we are faced with heavy study tasks and great pressure. Whenever I feel tired or anxious, listening to light music can always calm my nerves and lift my mood. It helps me sweep away my tiredness and regain my energy. Second, pure music allows me to focus more on my inner feelings. It makes me peaceful and helps me relieve my study pressure effectively.

From my point of view, music is more than just a kind of entertainment. It is an indispensable part of our daily life and the best spiritual companion in our growth. Music cannot only enrich our spare-time life, but also cultivate our artistic taste. It gives us strength when we are upset and brings us comfort when we feel lonely. Thank you for listening!
